CHILD PROTECTION POLICY

This policy outlines the board's commitment to child protection and recognises the important role and responsibility of all our staff in the protection of children. It includes the board's expectations when child abuse is reported or suspected by us.

All staff members (including contractors and volunteers) are expected to be familiar with this policy, its associated procedures and protocols and abide by them.

The board of trustees has an obligation to ensure the wellbeing of children in our care so they thrive, belong and achieve. We are committed to the prevention of child abuse and neglect and to the protection of all children. The safety and wellbeing of the child is our top priority. Advice will be sought through appropriate agencies in all cases of suspected or alleged abuse.

In line with section 15 of the Children, Young Person and Their Families Act, any person in our school/kura who believes that any child or young person has been, or is likely to be, harmed (whether physically, emotionally, or sexually) ill-treated, abused, neglected, or deprived must follow school procedures and may also report the matter to a social worker or the local police.

Although ultimate accountability sits with the board, the board delegates responsibility to the principal to ensure that all child safety procedures are implemented and available to all staff, contractors, volunteers and parents. Therefore, the principal must:

1. Develop appropriate procedures to meet child safety requirements as required and appropriate to the College.
2. Comply with relevant legislative requirements and responsibilities.
3. Make this policy available on the College's internet site or available on request.

5. Ensure the interests and protection of the child are paramount in all circumstances.
6. Recognise the rights of family/whanau to participate in the decision-making about their children.
7. Ensure that all staff are able to identify the signs and symptoms of potential abuse and neglect, deal with disclosures by children and allegations against staff members and are able to take appropriate action in response.
8. Support all staff to work in accordance with this policy, to work with partner agencies and organisations to ensure child protection policies are understood and implemented.

9. Promote a culture where staff feel confident they can constructively challenge poor practice or raise issues of concern without fear of reprisal.
10. Consult, discuss and share relevant information, in line with our commitment to confidentiality and information sharing protocols, in a timely way regarding any concerns about an individual child with the board or designated person.
11. Seek advice as necessary from NZSTA advisors on employment matters and other relevant agencies where child safety issues arise.
12. Make available professional development, resources and/or advice to ensure all staff can carry out their roles in terms of this policy.

All members of the College community should be free from any form of harassment at the College, or in the College related environment. SEARCH AND SEIZURE

Sacred Heart Girls' College believes that it is important to keep our students safe from the dangers of illicit items.

We aim to ensure that the College environment is a safe and secure learning place, and in order to do this we must, at various times, check that students are not in possession of an illicit item that is likely to endanger safety, likely to detrimentally affect the learning environment, harmful, or stolen property. Illicit items can include (but are not limited to) drugs, alcohol, cigarettes, pornography and weapons.

Searches may be carried out either for cause (for example, because the College is concerned that items have gone missing) or randomly from time to time by any member of the teaching staff. All searches will be carried out in a manner that ensures the dignity of the student is protected, and will be in accordance with the following process:

- Students may be asked at any time by a member of the Senior Management Team (SMT), to empty out their pockets, or to open their bag or locker for inspection. The SMT member must not search the student and is not entitled to search the bag themselves.
- Students must be present at all times during a search of their personal property.
- Another staff member must also be present during the search to act as a witness.
- If the student volunteers their ICT device to be searched, the SMT member or their witness are entitled to touch and search the device, provided the student is present.
- If an illicit item is found in the student's possession, or in the student's bag or locker, or on a student's digital device, the teacher may retain the item or digital device the item is on pending the appropriate inquiry or disciplinary process.
- If a student does not agree to the search being carried out, the student will be asked to go to report to the Senior Leadership Team. At this point, the student will then have the opportunity to ask any questions that they have in relation to the search, and the student's parents will be contacted.
- The student will be supervised at the office of the Deputy Principal until the arrival of a parent or guardian.
- Following the arrival of the parent or guardian, the student will again be asked to empty their pockets, or to open their bag or locker for inspection. If the student maintains that they will not agree to the search being carried out, such refusal will be dealt with as a disciplinary matter.
- If a parent or guardian is not available to attend the College, a College counsellor or similar will be asked to attend in support of the student. If the student maintains that they will not agree to the search being carried out, such refusal will be dealt with as a disciplinary matter.
- The policy will not prevent any urgent search of a student or their bag or locker, or seizure of property, where it is required to prevent harm to the student or other people, or to prevent damage to property.
- Any items that are retained will be stored by the College with reasonable care but the College shall not be liable to the student for any loss of items.

EDUCATION OUTSIDE THE CLASSROOM

Sacred Heart Girls' College believes that Education Outside the Classroom (EOTC) enhances social, spiritual, emotional, physical and intellectual abilities.

Sacred Heart Girls' College will ensure that approved EOTC objectives are delivered in a safe, effective and affordable manner.

- An EOTC activity is a school activity that requires students to be taken off the school grounds usually within (but not limited to) normal school hours. It also covers activities that use classroom time from another subject area.
- RAMS: risk analysis and management system.
- The EOTC officer will be appointed by the principal as their delegated representative.

The EOTC Approval Process at SHGC

All EOTC activities require the approval of senior management, acting on the delegated authority of the Board of Trustees. All requests to take students out of school should be made to the Deputy Principal/ EOTC co-coordinator.

Before permission is granted the following documentation will be required;

Information to parents/caregivers.

Parents sign a "Low Risk" EOTC activity form upon entry to the school. Approval is not required for low level activities (see low risk form for more details). Notwithstanding this, parents should be informed that the activity will be taking place.

Approval **must** be sought from the EOTC officer **at least 1 month before** the event is due to take place. EOTC activities seeking approval within 1 month must get written permission from the Principal. Overseas Trips require BOT approval at least one year in advance.

The following documentation is required using the correct EOTC application form:

- A clearly stated educational outcome for the event with signed approval from the relevant Head of Faculty.
- Event dates.
- Expected time of departure and return.
- The groups of students involved.
- Names of supervising staff and/or volunteers. Noted First Aid qualified staff.
- For EOTC events that involve at least 1 overnight stay a full itinerary of activities with associated RAM assessment is required.
- Proposed ratio of adults to students with appropriate rationale.
- Relevant RAMS form – see procedure below.
- Suitable Planned Absence Form to distribute to students concerned.
- Cancellation arrangements.

Refer to EOTC Procedures (Supporting Documents)

Once approved, the staff member in charge of the EOTC trip must attach to the RAMS and take a copy with them, a printout from Kamar of the group including student emergency contact details and medical conditions.

Risk management & Crisis management

A risk assessment and management system (RAMS) form must be submitted to the Deputy Principal/ EOTC co-coordinator.

The RAMS form shall identify the likely hazards of the event and consider how each hazard is to be eliminated or managed (by minimizing or isolating the hazard).

Completion of the RAMS form requires that the following be considered;

- What personnel, equipment and skills are required to operate this event in a safe and effective manner?
- What briefing of students and adult volunteers is required?
- What hazards are associated with the event transport arrangements?
- What hazards are associated with the event venue?
- What hazards are associated with the event activities?
- What hazards are associated with the event accommodation arrangements?
- What personnel, equipment or skills are needed to deal with the situation if things do go wrong?

At present the College uses two RAMS forms. The first is a comprehensive form for use with overnight trips. The other is a simpler document for use with local day trips.

For information on specific activities staff are referred to the Ministry of Education [publication](#).

TRAUMATIC INCIDENTS

Evidence clearly shows that planning for a traumatic incident before it happens reduces the negative impact. The College acknowledges that it needs a plan and procedures to respond effectively to a traumatic incident.

Traumatic incidents are broadly defined as events that:

- cause sudden and/or significant disruption to the effective operation of the College
- have the potential to affect a large number of people in the College community
- create significant dangers or risks to the physical and emotional well-being of people within the College community
- attract media attention or a public profile to the College

Traumatic incidents do not always occur on site or during College hours. Examples include sudden death, serious injury, illness, violence, abuse and suicide. Natural disasters such as earthquakes, fires, flooding or volcanic eruptions are other examples.

The BOT will ensure that a team is established to manage traumatic incidents when and if they arise.

The Traumatic Incident Team will be made up of suitable personnel and will use relevant external resources and expertise as necessary.

The Traumatic Incident Team will follow the best practice guidelines available through the Ministry of Education.

The Traumatic Incident response plan will be formulated by the Traumatic Incident Team and regularly reviewed.

MANDATORY REPORTING OF CHILD ABUSE

[Refer to Ministry of Education Reporting Child Abuse Protocol in the Health & Safety Manual]

MANAGING CHALLENGING BEHAVIOUR AND USING PHYSICAL RESTRAINT

A teacher or authorised staff member can use physical restraint if they reasonably believe the safety of the student or any other person is at serious and imminent risk, and the physical restraint must be reasonable and proportionate in the circumstances.

Situations where it might be appropriate include:

- Breaking up a fight
- Stopping a student from moving in with a weapon
- Stopping a student who is throwing furniture close to others who could be injured
- Preventing a student from running onto a road

Physical restraint is a serious intervention and when it is used, a notification to the MoE and the BoT is a requirement.

- Provision for staff training in focussing on prevention and de-escalation strategies will be available for staff by SLT, supported by the local MoE office
