

# Level 2 Mathematics Courses

## Mathematics

This course is suitable for students wishing to study any of the three Mathematics courses available at Level 3. The course has a mixture of both Internal and External Achievement Standards, covering both pure mathematics and statistics.

Approximately 22 credits offered

## Mathematics with Statistics

This course is focused on statistics and is mainly made up of Internal Achievement Standards. In the later part of the year students will have the choice to sit an External Achievement Standard or to work on some Finance Unit Standards. This course leads on to Level 3 Statistics.

Approximately 22 credits offered
